

Training Classes and Materials

SCATS Safety and Health Training:

SCATS training classes are results oriented with the goal of developing knowledge and understanding of OSHA and State of Nevada safety requirements. Safety and health training programs are designed to:

- Improve hazard recognition skills of management and employees
- Identify management activities employers can use to protect their employees from workplace hazards
- Enable a more efficient and cost effective business operation

Your Training Partner: Training is an integral part of any successful safety and health program and SCATS can be a valuable asset to assist you in your training efforts. Each SCATS office publishes a quarterly training schedule of safety and health classes held at that location.

SCATS offers a wide range of classes which are constantly updated to best meet the needs of the ever-changing workplace environment. These programs help employers with their safety program development activities and hazard recognition skills.

By request, our classes may be conducted at your facilities. SCATS has many specialty and conference programs that are designed to meet your business needs.

A sample of classes available include:

- 10 and 30 Hour Outreach Programs for both Construction and General Industry
- Written Workplace Safety Program
- OSHA Injury and Illness Recordkeeping
- Four Hour Defensive Driving Course
- Workplace Violence
- Workplace Evaluation and Management Tools
- Fundamentals of Accident Investigation
- Other Regulatory and Awareness Programs

Safety and Health Practitioner

Certificate Program: SCATS initiated this unique program to recognize participants who have completed 26 SCATS training classes (8 core, 8 area of interest, and 10 electives). Those attaining this goal are awarded a special certificate recognizing their significant accomplishment.

Website: www.4safenv.state.nv.us: The SCATS website is another valuable resource for information to assist you with your safety and health program. Many materials, such as "Getting Started in Safety" bulletins, are available by visiting our website.

Continuing Education Units: Through a partnership with many Nevada Colleges, Continuing Education Units (CEUs) can be obtained for a minimal charge after attending SCATS classes. Information on how to obtain CEUs is provided at the classes.
